What we found on your current website

https://www.homepros-kc.com/?utm_source=google+&utm_medium=organic&utm_campaign=gbp-website-link

- Not mobile-friendly
- No online way to capture leads
- Very thin / under-construction site

Why this matters

A great business with a weak website is like a powerful engine with no car body around it - all that horsepower, but nothing to carry customers to you. Every day the site stays broken, slow, or hard to use on a phone, you are handing booked jobs to competitors who simply look more trustworthy online.
